添加菜品：

This screenshot shows a mobile application interface for adding a new dish. At the top, there is an orange header bar with a back arrow, the text "添加菜品" (Add Dish), and a menu icon. Below the header, there are three input fields for "菜名" (Dish Name), "原价" (Original Price), and "现价" (Current Price), each with a placeholder text "请输入菜品名称" (Please enter dish name), "请输入菜品原价" (Please enter dish original price), and "请输入菜品定价" (Please enter dish price) respectively. Below these fields is a larger text area for the dish description, with a placeholder text "菜品的介绍，必要时可以说明菜品的单位，比如'扎','斤'等" (Dish introduction, you can specify the unit of the dish when necessary, such as '扎', '斤', etc.). Below the text area is a label "上传图片" (Upload Image) and a dashed box for the image. At the bottom of the form is a large orange button labeled "上传数据" (Upload Data).
